Professional Summary

Second-year Computer Science and Engineering student with strong foundations in Java, Python, Data Structures, problem-solving, and backend development. Skilled in building RESTful APIs using Spring Boot basics, integrating MySQL and PostgreSQL databases, and developing responsive web applications. Exploring Machine Learning concepts through beginner-level predictive models and data analysis projects using Python. Passionate about software development, backend engineering, AI learning, and real-world technology solutions.

Education

Saranathan College of Engineering, Trichy 2024 – 2028
Bachelor of Engineering in Computer Science and Engineering
Bishop Heber Higher Secondary School, Trichy

Technical Skills

- **Languages:** Java, Python, Python Basics, C, C++
- **Frontend:** HTML, CSS, JavaScript
- **Backend:** Spring Boot Basics, Spring Data JPA, REST APIs
- **Machine Learning:** ML Learner, Regression Models, Basic Data Analysis
- **Databases:** MySQL, PostgreSQL, Oracle
- **Tools & Platforms:** Git, GitHub, VS Code, IntelliJ IDEA, Postman, Docker, Google Colab, Anaconda
- **Deployment Tools:** Vercel, Netlify, Render, Zoho Catalyst, Firebase

Projects

Authentication System (Java)

- Developed a secure login and validation system using OOP concepts

Website Scam Detector

- Built a basic detection system to identify potentially unsafe websites

TNEA Guider

- Developed a guidance-based application for TNEA-related assistance

Personal Responsive Portfolio

- Designed and deployed a modern responsive portfolio website

Mini E-Commerce Responsive Website

- Created responsive frontend with product listing and navigation

Basic Machine Learning Projects

- Student Marks Predictor, House Price Predictor, Student Performance Analyzer, and Simple Chatbot

Coding Practice

- Solved 50+ LeetCode problems focused on Data Structures and Algorithms

Certifications

- Artificial Intelligence and Machine Learning – Coursera
- Programming in Java – NPTEL
- Python Programming – Simplilearn

Key Highlights

- Strong interest in Software Development and Backend Engineering
- Exploring Machine Learning and AI concepts through practical projects
- Highly curious learner with strong problem-solving mindset
